WADENA NORTHWEST NURSERY

Wadena, Minnesota

MURRAY QUALITY STOCK

Member Of
Minnesota State Nurserymen's Association

TERMS

25% of the amount of order should be paid with the order and balance will be C. O. D. On small order we suggest full payment to save the C. O. D. charges. 5% discount will be allowed on orders paid in full and you may select stock of any kind to that amount. Stock will be shipped at proper time for planting in your locality.

Except where noted, these prices are F. O. B. Wadena, packing free. Usually express is the best method of shipment excepting on small stock.

QUANTITY RATES

25 plants of a variety price 10% higher than 100 rates.
50 plants of a variety at 100 rates. 5 or more plants of a kind is 10% less than each rate.

SALESMEN

We employ several salesmen to call on our customers. These are men and women with experience in the growing and planting of nursery stock and will gladly give you suggestions on arrangements and cultural directions. If you give your order to one of our salesmen, please make the payments on order to him and he will give you a receipted order copy which you should retain.

OUR GUARANTEE

We guarantee all stock to be true to name and of Murray Quality-first class. If you receive a shipment of stock in poor condition, please have expressman mark delivery slip and notify us at once.

Any stock which fails to grow the first year will be replaced on payment of 50% of purchase price, provided replacement order is received by Oct. 15th following delivery. It is agreed that we are not liable beyond the terms of this guarantee.

Trees For The Windbreak

These are Minnesota nursery grown trees of full sizes and at moderate prices. They are not the small grade as distributed by the Government.

Plant on ground prepared as for corn in rows 8 feet apart. Place a row of Caragana or Russian Olive on the outside with two rods or more space between next row of Siberian Elm to serve as snow trap. Use two rows of Elm or more, then two rows of green Ash. Space Caragana one foot in row, Russian Olive three feet, other trees six feet. If Evergreens are wanted, place inside the above.

		Per 100
Ash, Green	12-18 in.	\$1.50
Elm, American	12-18 in.	1.50
Elm, Siberian	12-18 in.	1.25
" "	2-3 ft.	2.45
Poplar, Norway	2-3 ft.	3.50
Willow, Golden	2-3 ft.	3.50
Willow-Laurel Leaf	2-3 ft.	3.50
Russian Olive	18-24 in.	4.25
Caragana	12-18 in.	1.50
"	2-3 ft.	4.25

(Prepaid When Cash In Full Is Paid With Order)

On Low ground, substitute Laurel Leaf Willow for Caragana or Olive, and Golden Willow and American Elm for Siberian Elm.

Orders for this stock should be placed early as our supply is limited. 10% discount for orders of 250 or more of a variety.

MINNESOTA GROWN. This assures you of hardiness. Strict annual inspections by the State means disease free and high quality stock.

SUGGESTIONS

For Your Plantings

Shrubs Which Attract Birds

Birds are attracted by shrubs and trees with edible fruits and bushy growth that give protection. Barberry, Cottoneaster, Cornus, Elders, Honeysuckles, Russian Olive are all good. These planted with Evergreens will attract and keep birds all thru the season.

Roses

We list only hardy types of Roses which can be grown in our climate with only a protection of peat mounded about the bushes in fall

AGNES. Cream yellow with arching branches.....	90c
AMELIE GRAVEREAUX. Rich red	85c
BELLE POITEVINE. Pink and very profuse	60c
GROOTENDORST. Clear red of baby rambler type. Very free blooming	75c
HANSA. Violet red. Very free blooming and extra hardy	60c
SIR THOMAS LIPTON. Pure white and similar in type to Gravereaux	75c

Climbing Roses

Need to be taken down and covered with soil or peat in fall. Should be trained on trellis

EXCELSA. Small, bright red blossoms in clusters	60c
DOROTHY PERKINS. Fine blossoms in clusters	60c

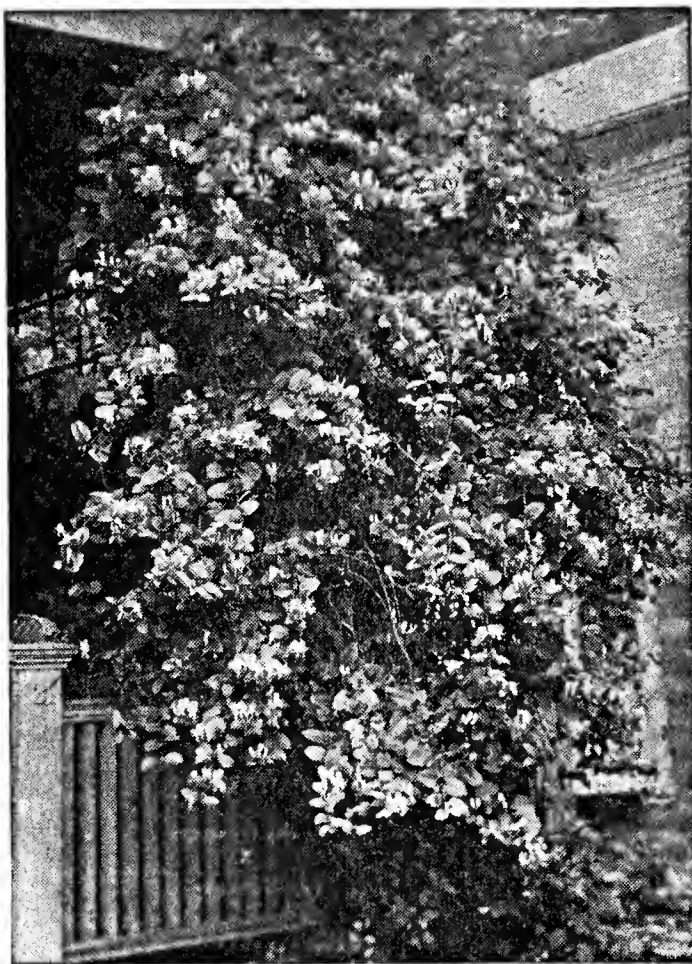

Climbing Vines

TRUMPET HONEYSUCKLE. Good for partial shade on porches. Needs support. Woody vine with attractive green leaves. Bright red trumpet-like blooms much sought after by humming birds	50c
CLEMATIS JACKMANII. Has beautiful large purple blossoms four inches across	\$1.00
ENGLEMANN IVY. Excellent for covering brick or stucco walls to which it clings. Very hardy and fast growing	50c
BITTERSWEET. Hardy native vine of rapid growth. Orange colored berries remain all winter. Prized for decorations	50c

Hedges

A well kept hedge of selected varieties will add much to any property. Plant a hedge on your property lines and then plant a shrubbery border along it with banks of Perennials

ARBOR VITAE. Evergreen. 1 ft. apart. Keep sheared. Can be kept at any height from 4 ft. up.	
6-8 inch.....\$15.00 per 100	8-12 inch.....\$30.00 per 100

TRUMPET HONEYSUCKLE

HEDGES — Continued

BUCKTHORN. For sheared hedge 4 ft. and up. Dark green foliage.
 12-18 inches.....\$4.00 per 100 18-24 inches.....\$6.00 per 100

CARAGANA. Arbor. For sheared hedge 4 ft. up, or natural 10-12 ft.
 Plant 1 ft. apart.
 12-18 inch.....\$1.50 per 100 2-3 ft.....\$4.25 per 100

CHINESE HEDGEWOOD. For sheared hedge 4 ft. up, or natural
 10-12 ft. Plant 1 ft. apart. Bright green foliage.
 12-18 inch.....\$1.25 per 100

RUSSIAN OLIVE. Can be kept to 4 ft. by shearing or will grow to
 10 ft. unsheared. Spacing 1 ft. in row.
 12-18 inch.....\$3.00 per 100

SPIREA. V. H. Make beautiful hedges about 4 ft. Should not be
 sheared. Space 2 ft. in row. 2-3 ft.....\$13.00 per 100
 Space 2 ft. in row 2-3 ft.....\$13.00 per 100

Above Hedge Prices Are Prepaid When Cash Accompanies Order

Each.....25c Three.....60c

TIGRIDA, *Mexican Sheel Flowers*. The new bulb flower with brilliant red, orange and yellow blossoms. Plant and handle like Glads, but blossom from July to September. Each.....25c Three.....60c

Hardy Fruits For The Northwest

These are trees of hardy varieties grown on extra hardy roots and by methods to assure you of hardiness and long life. These methods cost more and take longer than is necessary in more favored climates, but are the only way to withstand our severe climate. Cheap trees are apt to be from warmer climates and may not be found able to go thru a hard winter here.

Apples

RED DUCHESS. The standard early apple. Bright red fruit of good size and quality.

ANOKA. The hardy early fruiting apple originated by Prof. N. E. Hanson. Small bushy trees that often bear in third year. Good quality red apples, early fall.

HIBERNAL. The hardiest apple. The fruit is red striped and of good size. Early fall.

MINNESOTA 790. The new big baking apple from our Minnesota Fruit Farm. Equal to the best for this purpose. September.

HARALSON. Minnesota Fruit Farm origination and the highest quality apple for our section. Good size red fruit and a good keeper. Sept.

Crab Apples

DOLGO. The popular small red apple which grows so profusely. Fine for jelly and very hardy. August. Ornamental.

HYSLOP. A fair size crab, yellow and red. Good for jelly or pickled. August.

WHITNEY. Large size high quality crab. Good for sauce, eating out of hand, etc. August.

Price of Apples and Crabs.....4-5 ft. size.....75c each

Pears

Pears of these varieties can be grown where Apples will grow and under the same conditions Plant both varieties for good polinization

MINNESOTA NO. 3. Minnesota Fruit Farm production and hardiest pear. Of very good quality and good yield.

PATTEN. This is a high quality pear of good size resembling Bartlett. Price of Pears.....3-4 ft. size trees.....60c each

Plums

Plums can be grown on our sandy soils and give good yields of big, high quality fruits. Plant several varieties to assure polinization

UNDERWOOD. Large red plum of fine quality. Very hardy and ripens in early August.

KAGA. This is known as the Apricot-Plum and is a fine plum of good size and early season.

WANETA. A very large plum, red in color, and of good quality. Ripens late in August.

FIEBING. The large red plum which took the Fiebing Prize for quality and all around satisfaction. August.

Price of Plums.....4-5 ft. size.....60c each

Cherry Plums

These are the well known Hybrids of Plum and Cherry and are heavy yielders of fine quality fruit. Do well on sandy soils

OPATA. Good size purple fruit with red flesh. Early August.

SAPA. Big purple fruits with purple flesh. High quality and heavy yielding.

COMPASS. The old stand-by for adverse conditions. Heavy yield of red fruit.

NICOLLET. Red fruit that resembles the commercial pie cherry in appearance and taste.

OKA. Large purple fruit with red flesh. Finest quality cherry and resembles the big Western Bing in taste and appearance.

Price of Cherries.....4-5 ft. size.....65c each

Grapes

ALPHA. Medium size purple grapes of good quality and heavy yield. Originated near St. Cloud. Each.....25c Three for 60c

Raspberries

CHIEF. The new Minnesota Fruit Farm berry that is extra early, fine quality and free from disease. \$3.50 per 100

LATHAM. The most planted Raspberry. Big, high quality berries and very heavy yielding. \$3.50 per 100

Strawberries

MASTODON. Very large, good quality everbearing strawberry.

GEM. A very heavy bearing strawberry of high quality. Very popular. Everbearing.

\$2.00 per 100

Rhubarb

It will pay you to discard your old planting and plant a few of the new varieties as they are so much superior

RED Mc DONALD. High quality red stalks that cook the same color. Large size and very tender.

RED RUBY. Even the inside of this variety is red and when cooked looks like raspberry.

Price of Rhubarb.....50c each per No. 1 roots

Asparagus

Every garden should have 50 or 100 roots for their fine quality. Enrich the soil well annually, keep cultivated thru the summer

MARY WASHINGTON. This is a high yielding, rust free variety introduced by the U. S. Government. 1 year roots.....\$1.65 per 100

Ship On or About
(Leave this space blank if you desire us to ship on date we judge is best)

[illegible]

Our stock of everything listed in this catalog is complete early in the season; later on we may run short of some varieties, hence when placing late orders please state whether, if sold out of a specified variety, you wish to have us fill your order with one equally as good or as nearly like it as possible, or whether you desire us to refund your money. Please state your wishes.

While we expect prices in this catalog to remain in force until July 1st of current year, for reasons with which no doubt you are familiar, we cannot guarantee them, and it may become necessary to change them before that time.

RECOMMENDATIONS

We advise using peat moss in planting trees and other stock, and the use of commercial fertilizers of good brands. Peat moss as a mulch in beds of shrubs, roses, evergreens and perennials will be found of great benefit. If you cannot obtain peat moss or good grade commercial fertilizers, write us. We carry them in stock for local customers.

If you cannot obtain peat moss or good grade commercial fertilizers, write us. We carry them in stock for local customers.

LANDSCAPE DEPARTMENT

We have experienced men who are at your service to solve your landscape problems.

Landscape sketches will be furnished free for home plantings where you send us a rough sketch of your grounds showing buildings and any features on grounds with measurements. A picture of the place will greatly assist.

We will be glad to have our salesman call and make a sketch to submit to our landscape department. No charge is made for this service.

We will be glad to plant and service your plantings at reasonable prices.

Lawn Building and Maintenance

We have equipment for building new lawns and servicing old ones. Let us figure with you on this work. Our men have built many thousands of square feet of lawn that is standing up and giving satisfaction.

Proper maintenance measures each spring will cost but little and will assure you of a good green turf.
